

Update on the Senior Scholars' Journal Basket Review

Alan Dennis, Indiana University, USA

Doug Vogel, Harbin Institute of Technology, USA

In 2007, the AIS College of Senior Scholars identified a Basket of 8 Journals, which it considered to be top journals in our field. The Basket was revised in 2011, and is being reviewed again this year. The purpose of this session is to present some initial conclusions from the review and seek feedback to be incorporated in the report being prepared by the Task Force.
